SKILLS

Frontend Development: React.js, HTML, CSS, JavaScript, Tailwind CSS

Backend & Database: Spring, Spring boot, Spring MVC, Hibernate, SQL, PL/SQL

Programming Languages: Java, JavaScript

Version Control & Deployment: Git, GitHub

Developer Tools: VS code, Eclipse, MySQL Workbench

AI & Automation: Proficient in using AI tools for software development and workflow automation

PROJECTS

Online Job Portal | Java, HTML, CSS, JS, SQL, VS Code, SQL Workbench.

Achieved 98% accuracy. A Full Stack Java web app with three modules: Admin, Job Seeker, and Recruiter. Admin manages the system, Job Seekers can search/apply for jobs, and Recruiters can post/view applications. Built using Java with complete role-based functionality.

Electricity Billing System | Java, HTML, CSS, JS, SQL, VS Code, Eclipse, SQL Workbench.

This system significantly reduces the workload of electricity department staff and provides a convenient and transparent billing experience to consumers. It is especially beneficial for utility providers looking to modernize and digitize their services.

DECLARATION

I hereby declare that all the information furnished above is true to the best of my knowledge and belief.
